

PT-504KIT

COMPLETE UNDERGROUND TUNNEL TRAP KIT

PT-504 trap, PT-505 6 cm hole cutter and PT-506 search probe in one field-ready set

PRODUCT-SPECIFIC CONSTRUCTION

INTEGRATED THREE-PIECE KIT

One coordinated set supports the complete locate, open, align and set workflow for active underground runs.

PT-504 TUNNEL TRAP

The reusable vertical trap uses opposing lower openings and a visible red status handle.

PT-505 6 CM HOLE CUTTER

The stainless-steel cutter creates a clean access opening while helping preserve the surrounding tunnel structure.

PT-506 SEARCH PROBE

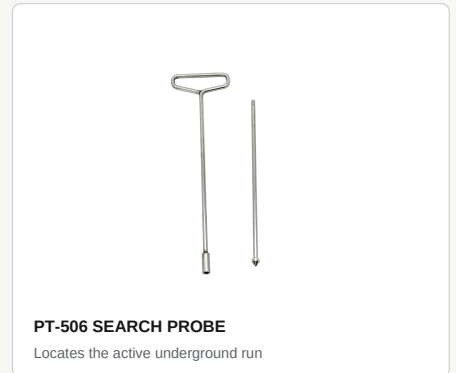

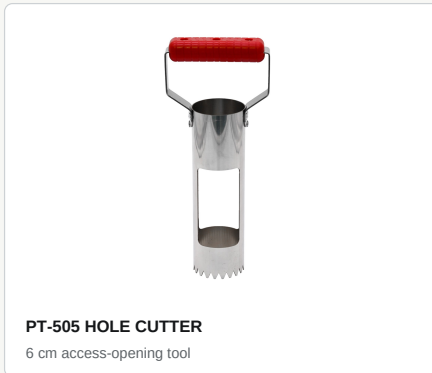

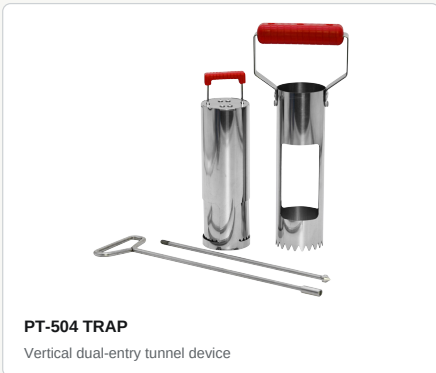

The slim probe helps trace the active tunnel before an access opening is made.

REUSABLE 304 STAINLESS STEEL

The declared set uses stainless-steel components suited to repeated field inspection and servicing.

PRODUCT IMAGE / EXACT CNPestech MODEL REFERENCE

MATERIAL	PRODUCT SIZE	UNIT / SET WEIGHT	PACKING
304 STAINLESS STEEL	15.8 X 6.6 X 31 CM	1.05 KG / SET	3 PIECES / SET; 12 SETS / CARTON

PRODUCT ADVANTAGES

Construction and field-service overview

APPLICATION ENVIRONMENTS

Managed lawns, gardens, orchards and parks

OEM / PRIVATE LABEL OPTIONS

- Retail box, master carton and export packing
- Customer logo, product label and barcode support
- Instruction language and warning-label artwork
- Sample confirmation before mass production

APPLICATION & RESPONSIBLE-USE NOTE

Designed for professional product programs involving active underground runs in managed outdoor ground. Confirm the target species before placement. Trapping law, protected-species rules, inspection frequency, handling and disposal requirements vary by market and site. The buyer and end user are responsible for local compliance and an appropriate service plan.

MODEL RELATIONSHIP

The tools support installation; they do not replace species identification, local legal checks or a site-specific control plan.
