

PT-102BULK

HEAVY-DUTY PLASTIC RAT SNAP TRAP

Removable underside bait cup / broad trigger paddle / toothed strike jaw / press-to-set rear pedal

DISCHARGED PRODUCT VIEW

ARMED MECHANISM VIEW

Toothed jaw / broad trigger paddle / central bait well / rear pedal

RAT-SCALE WORKING FEATURES

REMOVABLE BAIT CUP

The underside cup twists out while the trap is discharged, so bait can be serviced before arming.

PRESS-TO-SET PEDAL

A broad rear pedal provides the defined hand or foot contact point for one-motion setting.

BROAD TRIGGER PADDLE

The perforated paddle surrounds the central bait well and presents a large approach zone.

TOOTHED STRIKE JAW

Moulded teeth close into the base profile for a secure mechanical strike.

REUSABLE ABS BODY

Durable black ABS surfaces support repeat service, cleaning and dry re-use.

BAIT FIRST. ARM SECOND.

PT-102BULK separates bait service from the live mechanism. Turn the discharged trap over, remove and bait the underside cup, lock it back into the body, then press the rear pedal to arm. The broad trigger paddle and toothed jaw are sized for rat routes.

TYPICAL RAT-RUNWAY PLACEMENTS

Perpendicular to wall edges at confirmed rat activity: utility rooms, warehouses, farms, back-of-house service areas and other protected runways.

TARGET

RATS

MATERIAL

ABS PLASTIC

PRODUCT SIZE

14.4 x 6.3 x 7.3 CM

UNIT WEIGHT

102 G / PC

SUPPLY

BULK PACKING

STANDARD SUPPLY FORMAT

BULK PACKING / 50 PCS PER MASTER CARTON

Loose product in the master carton; no individual colour box in this specification.

LETHAL SNAP TRAP

Keep away from children, pets and non-target animals.

BULK SUPPLY & EXPORT PLAN

Standard product data, master-carton specification and door-height-based loading plan.
