

BAIT, SET & POSITION

STEPS 01-04

PT-103PRO upgraded easy-set mouse snap trap / read all steps before use

WARNING - SNAP ACTION / KEEP FINGERS CLEAR OF THE STRIKE BAR AND TRIP PADDLE

01 CONFIRM SAFE STATE

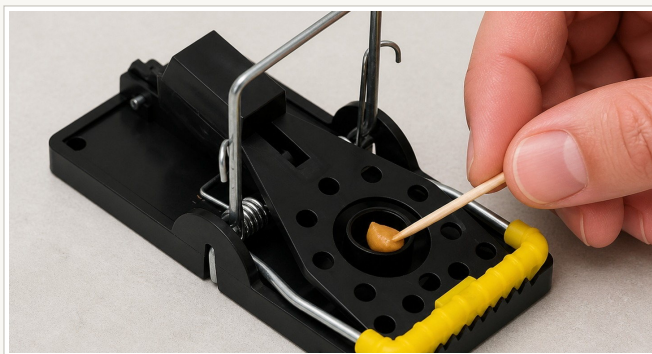

ACTION

Before baiting, confirm the yellow strike bar is down at the trip end, not standing upright. Handle the trap from the plain rear base; inspect the body, teeth, springs and catch.

KEY CHECK

Sprung / disarmed; no damage

02 BAIT THE CUP

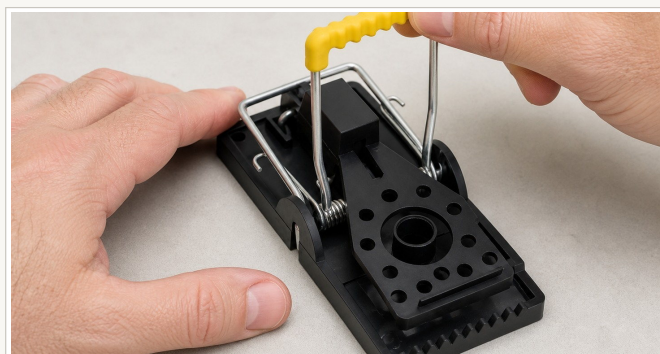

ACTION

With the trap sprung and disarmed, place one pea-sized dab of sticky bait, such as peanut butter, only inside the circular recessed cup. Keep the perforated paddle clean.

KEY CHECK

Small bait dab inside cup only

03 SET THE TRAP

ACTION

Keep the trap on a flat surface. Hold the rear base down and pull the moulded yellow strike bar slowly back and up until it stands vertical and locks firmly in the catch.

KEY CHECK

Yellow bar vertical and locked

04 PLACE AT THE WALL

ACTION

Place the set trap perpendicular to a wall, forming a T. Put the perforated trip-paddle and bait-cup end immediately beside the wall; point the plain rear base into the room.

KEY CHECK

Bait-cup end nearest the wall

PRODUCT REFERENCE / PT-103PRO

ABS plastic + steel / 10 x 5 x 5 cm / 42 g / designed for mice

Set only on a flat, stable surface. Keep bait and trap away from children and pets.

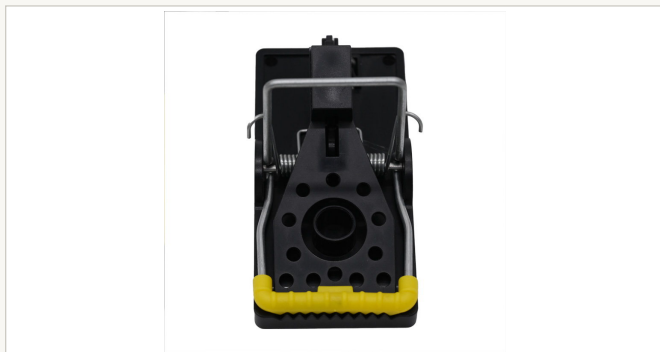

CHECK, DISPOSE & REUSE

STEPS 05-08

PT-103PRO upgraded easy-set mouse snap trap / read all steps before use

WARNING - SNAP ACTION / KEEP FINGERS CLEAR OF THE STRIKE BAR AND TRIP PADDLE

05 INSPECT DAILY

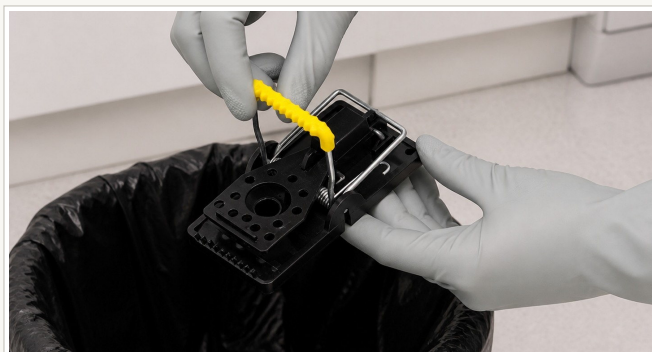

ACTION

Check every day and approach from the rear. A triggered trap no longer has the yellow strike bar standing vertical. Do not touch the paddle or reach inside the strike path.

KEY CHECK

Bar position shows trap status

06 DISINFECT & EMPTY

ACTION

Wear rubber or plastic gloves. Saturate or immerse the catch and trap with disinfectant for its labelled contact time. Then hold the rear base over an open bag, pull the yellow bar back slightly and let the catch drop in.

KEY CHECK

No bare-hand contact

07 RINSE & DRY

ACTION

Seal the first bag inside a second bag and dispose of it under local rules. Rinse the empty trap thoroughly after disinfection, then dry it completely.

KEY CHECK

Rinse well; dry completely

08 INSPECT BEFORE REUSE

ACTION

When fully dry, check the ABS base, front teeth, paddle, steel bars, springs and catch. Reuse only if undamaged; otherwise store unbaited and sprung away from children and pets.

KEY CHECK

Dry, intact mechanism only

SAFETY & SERVICE

Lethal snap trap for mice only. Never test the trip paddle with a finger. Keep trap and bait away from children, pets and non-target animals. Wear rubber or plastic gloves when handling a caught rodent or contaminated trap. Follow the disinfectant label and local disposal rules. Clean reusable gloves before removal or discard disposable gloves, then wash hands.
