

ASSEMBLE & LOAD THE REFILL

STEPS 01-04

PT-303 clothes moth glue trap / Windowed hanging box / separate adhesive refill board

ADHESIVE MONITOR - DRY INDOOR USE / KEEP AWAY FROM CHILDREN, PETS, FOOD AND LOOSE TEXTILES

01 CHECK THE SUPPLY

ACTION

Confirm the color box contains three flat hanging boxes and six adhesive refill boards. Keep the refill packs dry and undamaged until use.

KEY CHECK

3 boxes + 6 refill boards

02 ASSEMBLE ONE BOX

ACTION

Fold one paper hanging box only at its factory creases. Engage the existing tabs so the slim rectangular body is square and the C-shaped hook remains above the windows.

KEY CHECK

Box square; hook unobstructed

03 OPEN A REFILL PACK

ACTION

Open the supplied refill pack at its sealed edge and remove the board needed. Keep any remaining refills dry and protected.

KEY CHECK

One covered board removed

04 PEEL BOTH LINERS

ACTION

Hold the board by its non-adhesive edges. Peel the protective liner from one broad face, turn the board over, then remove the liner from the second face.

KEY CHECK

Both capture faces exposed

STRUCTURE CHECK / PT-303

Three hanging boxes accept six separate refill boards.

Use the factory creases, tabs and hook exactly as supplied; do not cut or add parts.

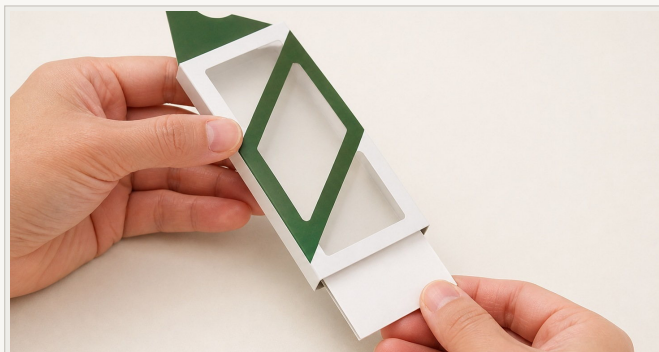

INSERT, HANG & SERVICE

STEPS 05-08

PT-303 clothes moth glue trap / Windowed hanging box / separate adhesive refill board

ADHESIVE MONITOR - DRY INDOOR USE / KEEP AWAY FROM CHILDREN, PETS, FOOD AND LOOSE TEXTILES

05 INSERT THE BOARD

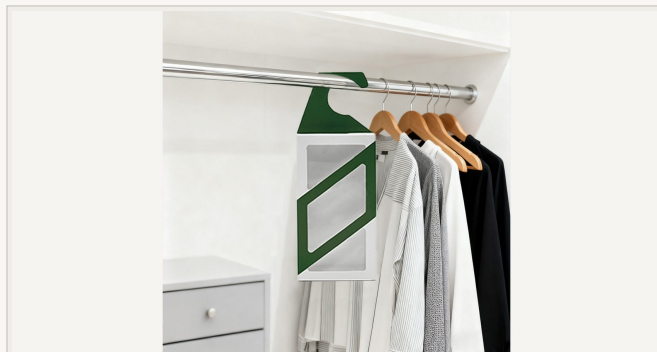

ACTION

Slide the exposed refill board straight through the open end of the assembled hanging box. Seat it flat and centered behind the viewing windows.

KEY CHECK

Board fully inside the box

06 HANG ON THE RAIL

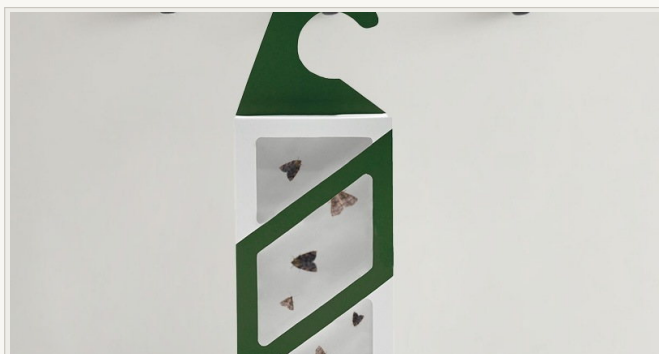

ACTION

Place the C-shaped hook over a wardrobe rail in a dry indoor area. Leave clear space around the box and keep the adhesive assembly from contacting garments.

KEY CHECK

Stable; clear of loose textiles

07 CHECK THE WINDOWS

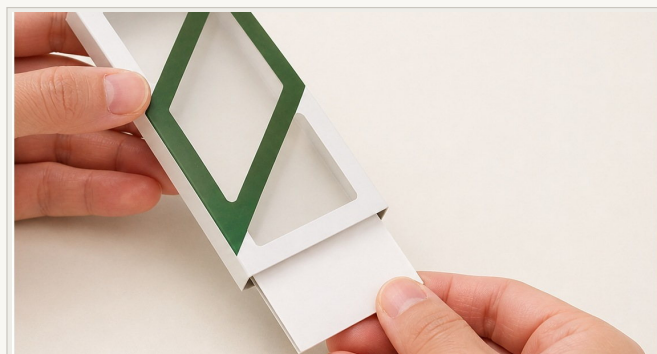

ACTION

Inspect the board through the clear windows regularly. Record activity if required and keep the trap dry, upright and undisturbed between checks.

KEY CHECK

Board visible; box intact

08 REPLACE THE REFILL

ACTION

Remove the used board by its edge and dispose of it according to the product label and local requirements. Insert a fresh board only if the box is clean, dry and undamaged.

KEY CHECK

Fresh board seated before rehangng

SERVICE & SAFETY

Inspect regularly. Keep unused refill boards dry and protected in the supplied refill packaging. Avoid contact with the exposed adhesive. Keep the hanging box clear of garments, children, pets, food and non-target animals. Dispose of used boards according to the product label and local requirements. This adhesive monitor does not replace inspection and cleaning of affected textiles or storage areas. Do not reuse a wet, crushed or contaminated box.
