

UNPACK, PEEL & FOLD

STEPS 01-04

PT-304 clothes moth glue trap / One-piece folding board / inward adhesive chamber / integrated hook

ADHESIVE MONITOR - DRY INDOOR USE / KEEP AWAY FROM CHILDREN, PETS, FOOD AND LOOSE TEXTILES

01 OPEN THE FOIL PACK

ACTION

Remove one foil package from the color box. Open it at the sealed edge and slide out one flat trap without bending the hook or scored panels.

KEY CHECK

One flat trap; pack opened

02 CHECK THE FLAT TRAP

ACTION

Lay the trap with the protective liner facing upward. Check the single C-shaped hook, two factory score lines, one end tongue and the horizontal front slot above the butterfly cutout.

KEY CHECK

Hook, scores, tongue and slot intact

03 PEEL THE LINER

ACTION

Hold only the paper frame and pull the protective liner slowly away from the adhesive panel. Keep fingers, clothing and nearby surfaces clear of the exposed glue.

KEY CHECK

Adhesive exposed; edges clean

04 FOLD AT THE SCORES

ACTION

Fold the paper only along both factory score lines so the adhesive surface turns inward. Bring the three panels together to form the triangular chamber.

KEY CHECK

Glue faces inside the chamber

STRUCTURE CHECK / PT-304

One die-cut board folds into one triangular hanging chamber.

Use the factory creases, tabs and hook exactly as supplied; do not cut or add parts.

LOCK, HANG & REPLACE

STEPS 05-08

PT-304 clothes moth glue trap / One-piece folding board / inward adhesive chamber / integrated hook

ADHESIVE MONITOR - DRY INDOOR USE / KEEP AWAY FROM CHILDREN, PETS, FOOD AND LOOSE TEXTILES

05 LOCK THE FRONT SLOT

ACTION

Guide the single end tongue from the rear panel through the horizontal slot on the front panel above the butterfly cutout. Press the paper edges until the chamber holds; do not use a side seam.

KEY CHECK

Tongue through front slot; no side tab

06 HANG BY THE HOOK

ACTION

Place the single integrated C-shaped hook over a wardrobe rail. Keep both open ends of the triangular chamber unobstructed and clear of garments.

KEY CHECK

Hook secure; openings clear

07 POSITION & CHECK

ACTION

Use only in a dry indoor textile-storage area. Inspect the inward-facing adhesive surface regularly without touching it or compressing the chamber.

KEY CHECK

Dry, open and undisturbed

08 REMOVE & REPLACE

ACTION

Take down the complete paper trap by its hook when the adhesive is covered, contaminated or no longer serviceable. Dispose of it according to the product label and local requirements.

KEY CHECK

Replace the complete trap

SERVICE & SAFETY

Inspect regularly. Avoid contact with the exposed adhesive and keep both chamber openings clear. Keep the trap away from children, pets, food and loose textiles. Dispose of the complete used paper trap according to the product label and local requirements. This adhesive monitor does not replace inspection and cleaning of affected textiles or storage areas. Do not reuse a wet, crushed or contaminated trap.
