FOLD-TO-HANG CLOTHES MOTH TRAP

Flat paper-and-glue board forms a triangular adhesive capture chamber

STANDARD TRIANGULAR CLOTHES-MOTH GLUE TRAP / TWO COLORWAYS SHOWN

PRODUCT-SPECIFIC CONSTRUCTION

ONE-PIECE PAPER BODY

The flat die-cut board carries the outer panels, fold lines, locking tab and hanger as one integrated part.

TRIANGULAR CAPTURE CHAMBER

Folding the scored panels places the adhesive surface inside a sheltered three-sided cavity.

INTEGRATED WARDROBE HOOK

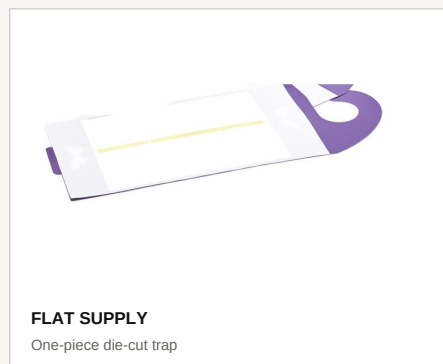

The large C-shaped hook hangs the assembled chamber directly from a clothes rail.

OPEN-END ACCESS

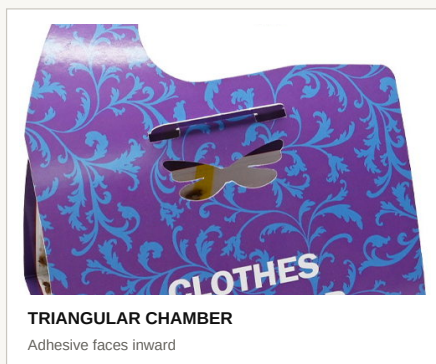

Both ends of the triangular chamber remain open for approach and visual inspection.

COMPACT RETAIL PACK

Six flat traps fit one color box before final folding, reducing the retail pack footprint.

The 40' HQ pallet build has 41 mm nominal door-height clearance; verify carton tolerance, pallet, dunnage, payload and actual equipment by trial loading.
