

PT-404PV

RAT BAIT STATION WITH PAVER BASE

PT-404 upper station paired with an independent slide-in weighted paver tray

PT-404PV / STANDARD PRODUCT CONFIGURATION

PRODUCT-SPECIFIC CONSTRUCTION

PT-404 UPPER STATION

The long black PP upper housing retains the opposing entry geometry, key-operated lid, internal dividers and metal bait rods.

INDEPENDENT PAVER MODULE

A separate lower tray carries the paver slab and slides into dedicated rails beneath the upper station.

3.8 KG DECLARED UNIT

The declared assembled unit weight includes the paver-equipped product configuration shown.

PHYSICAL BAIT RETENTION

Vertical metal rods secure compatible centre-hole bait blocks used only according to their label and the site plan.

SERVICE IN TWO ZONES

The upper lid provides bait access; the lower paver tray is inspected and seated separately before placement.

UPPER SERVICE CHAMBER

Internal dividers and retaining rods

PAVER MODULE EXTENDED

Weighted tray shown as a separate component

PHYSICAL BAIT RETENTION

Centre-hole blocks seat on metal rods
