

PT-701

HAND-PUMP POWDER DUSTER

Opaque coated-steel reservoir / top press pump and fill access / long capped delivery tube

PT-701 / STANDARD PRODUCT CONFIGURATION

PRODUCT-SPECIFIC CONSTRUCTION

OPAQUE COATED-STEEL RESERVOIR

The white cylindrical body is the identifying opaque PT-701 configuration, with black protective rings at the upper and lower edges.

TOP PUMP / FILL ACCESS

The black top component is used for hand pumping and is removed to expose the documented top fill opening.

LONG SIDE DELIVERY TUBE

The straight blue tube places the capped black outlet away from the reservoir for close, directed positioning.

TETHERED OUTLET CAP

The flexible loop keeps the small black outlet cap with the tube while the unit is being prepared and used.

LOWER BRASS FITTING

The small brass fitting is a visible PT-701 component; keep it present, clean and undamaged before loading.

TOP FILL ACCESS

Black top component removed

CAPPED DELIVERY END

Tethered cap remains with the tube

CLOSE TARGET POSITION

Outlet held close to a dry joint

FORMAT

HAND PUMP

MATERIAL

COATED STEEL + RUBBER

PRODUCT SIZE

25 X 6 X 11 CM

UNIT WEIGHT

250 G

MASTER CARTON

36 PCS / MASTER

STANDARD SUPPLY FORMAT

BULK PACKING / 36 PCS / MASTER CARTON

36 empty PT-701 dusters per master carton; no powder and no individual colour box in the declared bulk format.

EMPTY APPLICATOR

Use only with dry powder and PPE permitted by its label.

PRODUCT & EXPORT PLAN

Declared product data, master packing and conservative upright-carton loading plan.

STANDARD PRODUCT & ORDER DATA

ITEM NO.	PT-701
PRODUCT	Pesticide Powder Duster
USE FORMAT	Opaque refillable hand-pump duster with long capped delivery tube
MATERIAL	Coated steel + rubber
PRODUCT SIZE	25 x 6 x 11 cm
UNIT WEIGHT	250 g
PACKING	Bulk packing / 36 pcs per master carton
MASTER CARTON	33 x 33 x 36 cm
CARTON WEIGHT	8.1 kg
MOQ	6,000 pcs
REFERENCE LEAD TIME	75 days / subject to order confirmation

MODEL IDENTITY

Black top component removed

DELIVERY CONFIGURATION

Outlet held close to a dry joint

WEIGHT BASIS TO CONFIRM

The listed 250 g unit weight, 36-pc pack count and 8.1 kg carton weight require factory confirmation because the arithmetic does not reconcile. Do not use 8.1 kg for payload planning until the packed-carton weight is confirmed.

PACKING BASIS

36 empty PT-701 dusters per master carton; no powder and no individual colour box in the declared bulk format.

EXPORT LOADING - MASTER CARTONS / PRODUCTS

1,200 x 1,000 x 144 mm pallet / container-door-height basis

PALLET

9 CTN / LAYER

20' GP

10 PALLETS

40' GP

Floor orientation uses upright 33 x 33 x 36 cm cartons. Door-height clearances: 120 / 120 / 65 mm.

Pallet: 9 cartons/layer without overhang. Loaded heights: 1944 / 1944 / 2304 mm; clearances 336 / 336 / 281 mm.

Geometric planning only; not a payload commitment. Confirm packed-carton weight, actual door, pallet condition, restraint and a physical trial load before shipment.
